

How your donation is changing kids' health at Children's Miracle Network Hospitals®

RE/MAX, LLC raised \$8,352,637

Alexis was hit by a car. Bella has bipolar disorder. Vinny relies on a special vest to breathe. Mo lost his fourth battle with cancer. Aubrey has Down syndrome.

These kids have lived complex lives. The one thing they have in common: they have relied on Children's Miracle Network Hospitals.

Each year, millions of children require specialized, expensive healthcare. Yet 4.3 million children didn't have health insurance and 37 million children trusted Medicaid to cover their health-related expenses. Children's Miracle Network Hospitals are on the frontlines of this crisis, open 24/7/365 to provide high-quality care. But they can't do it alone.

In 2020 Children's Miracle Network Hospitals raised \$370,068,979 for 170 children's hospitals across the United States and Canada. These unrestricted funds supported hospital's most urgent needs, whether that was providing care to children without insurance, investing in research that

discovers life-saving treatments and cures, or offering families comfort during the most trying moments of their lives.

But we have our sights set even higher. Because we know that when we improve medical treatments, we can address the most challenging health issues today while preventing and preparing for those to come. When we fund pioneering research, we transform how we care for children not just in their youth, but throughout their lives. And when we change the health of even one child, we create a ripple effect felt by our communities for years to come.

When we change kids' health, we change the future—for all of us.
